Silver, which has been accepted as a coin since the dawn of history, has been demonstrated to add to the purchasing power of gold by decreasing the value of all forms of property as well as human labor, and the supply of ourrency is purposely abridged to fatten usurars, bankrupt enterprise and enslave industry. A vast conspiracy against mankind has been organized on two continents and is rapidly taking possession of the world. If not met and overthrown at once it forebodes terrible social convulsion, the destruction of civilization, or the establishment of an absolute despotism.

tion, or the establishment of an absolute despotism.

We have witnessed for more than a quarter of a century the strungles of the two great political parties for power and plunder, while grievous wrongs have been indicted upon a suffering people. We charge that the controlling influences dominating both these parties have permitted the existing dreadful conditions to develop without serious efforts to prevent or reatrain thom. Neither do they now promise us any substantial reform. They have agreed together to ignore, in the coming sampaign, every issue but one. They propose to drown the outeries of a plundered people with the uproar of a sham battle ever the tariff, so that capitalists, corporations, national banks, rings, trusts, watered stock, demonstination of silver and the oppressions of the usurers may all be lost sight of. They proposed to sacrifice sur homes, lives and children on the altar of mammon; to destroy the mutitude in order to secure corruption funds from the millionaires.

Assembled on the anniversary of the birthday of the nation and filled with the spirit of the grand generation who established our independence, we seek our independence. We seek to restore the government of the republic to the hands of "the plain people" with whose class it originated.

the hands of "the plain people" with whose sizes it originated.

We assert our purposes to be identical with the purposes of the national constitution: "To form a more perfect union, artabilish justice, insure domestic branquility, provide for the common defense, promote the general welfare and secure the bleesings of liberty for purselves and our posterity."

We declare that this republic can only entire as a tree government while built upon the love of the whole people for each other and for the mation; that is cannot be pinned to gether by bayonets; that the civil war is over and that every passion and resentment which proved of it must die with it, and that we must be in fact as we are in name, one united brotherhood of fromen.

We declare, therefore:
First—That the union of the labor forces of
the United States this day consummated, shall
be permanent and perpetual. May its spirit
enter into all hearts for the salvation of the
republic and the uplifting of mankind.
Second—Wealth belongs to him who creates

The people's party at the outset to secure permanent control of the party organization of the people unaffected by the Interests of those in public service does hereby in national convenient in assembled at Omaha on this 4th day of July, 1822, establish this ordinance as fundamental law of party organization, viz. No permanent law of party organization, viz. No permanent including senators, consumed and members of the legislature, state and local, small be eligible, to sit or vote in any convention of the party. Moreover, a populist who has burned his bridges behind him and is marching through the enemy's country toward the promised land, would not turn his hand over to be able to dictate which one of the old parties should retain or assume control in any state or in the nation at large.

But the sophistical imbeelility of the Mail's argument is best apprehended when it is remembered that populists are just as auxious and try just as hard to win converts from one old party as the other. Indeed, it may safely be said, that as a rule the voting strength. We are going right shead. We shall fight right on through the presidential and congressional elections in November, and then we expect to make a far better showing. After that we will go alhead and carry on the fight for the next two years."

While at Kansas City Gen. Weaver said, that as a rule the voting strength of the people's party is drawn, in about the same proportion or ratio to its nu-

contest with the tyrannical combine of clothing manufacturers of Rochester and declares it to be the duty of all who hate tyranny and oppression to refuse to purchase the goods made by the said manufacturers or to patronize any merchant who sells such goods.

FOOLISH BOURBONS.

The Bourbons in Both Old Parties Think Their Party Ties Will Still Suffice to Rind Populisits. One of the peculiarities of the present political situation is the hallucination on the part of the twin frauds which causes them to believe that old parly ties are yet "dear to the heart" of peo-ple's party men. The two old parties do not seem able to comprehend the idea that populists have renounced their allegiance to them and, while supremely interested in the success of their own party, are utterly indifferent as to which one of the twin frauds gives up the ghost first. Thus the Kansas City Mail, a partisan democratic paper of the ultra Bourbon stripe, says:

Mr. Weaver must know, for he is not a fool, whatever else he may be, that the only thing possible for him to accomplish in Missouri is the defeat of the democratic party by the tremph of the republican party. If he and his assistants can induce a sufficient number of Missouri control of the republican party. assistants can induce a sufficient number of Missouri democrate to leave their old committee and party and vote for Leverett Leonard, the third party nominee, he can succeed—in what? In electing William Warner, a high tariff, butter republican partisan, governor of Missouri. This much and no more is the bare possibility of Weaver's efforts in Missouri. So there is manifestly nothing to be accomplished by this variegated many-colored politician and office-seeker in Missouri but the possible election of a republican governor in Missouri.

The Mail evidently does not under-

The Mail evidently does not understand that next to winning a victory please the populists better than to over-turn the existing stats of affairs not only in Missouri, but in all other states, turning out the party in power and breaking up the rings and combines that seek to establish its perpetual

reign.

The people's party presidential candi-data addressed an enthusiastic meeting at Kunsas City on Toesday evening the 11th. To a reporter Gen.
